Attain a National Diploma degree on Computer Science

SKILLS

PHP	JavaScript / Typescript
React	React js / Next js / Redux
HTML & CSS	React Native
JavaScript	Working with APIs
HTML5/CSS/SCSS	Mentoring
Bootstrap/ Materialize	User Interface Design
Git	

HOBBIES

Due to my enduring passion for software development, I enjoy expanding my knowledge of various computer programs that I can use to further my career in the industry. I also enjoy playing a variety of games.

VOLUNTEERING

Frontend Mentorship

- Personally helping and actively mentoring individuals with zero knowledge of web development.
- Making out time to organize a live coding section with mentees to help them understand a technology better.

OPEN SOURCE

Support Widget

I built an open-source widget that can be used as a support contact form for any website. This is a great project as it helps others learn how to build a widget and also contributes to open-source seamlessly.
